FOR IMMEDIATE RELEASE

i-PRO Introduces The New Lineup of S-Series Network Cameras

- The New Standard by i-PRO Video Surveillance -

Fukuoka, JAPAN (June 10, 2021) – Panasonic i-PRO Sensing Solutions, formerly Panasonic Security Group, is launching its new S-Series of video surveillance network cameras. The brand-new S-Series network cameras offer a "New Standard" by i-PRO video surveillance with drastically improved image quality with advanced technology. It comes with pre-installed AI analytics applications that detects people and vehicles with accuracy, allowing you to start easily state-of-the-art video surveillance. The camera can be configured while keeping the unit in the box with the acclaimed "Easy Kitting Packaging", making the installation process smooth and easy.

Key features

■ Drastically improved image quality by advanced technology and *AI intelligent Auto*.

■ Pre-installed AI analytics applications to detect human and vehicles with accuracy. Ready for installing 3rd party applications.

■ Detecting suspicious sound like Gunshot, Yell, Vehicle horn, and Glass break, with external microphones.

■ The *Easy Kitting Package* enabling installers to configure cameras easily while keeping the unit in the box.

"This new S-Series is our mainstream product of i-PRO Network Cameras, and the first in industry to be installing AI engine with Deep Learning as a standard feature. Combining the latest components and evolving i-PRO proprietary technologies, we will further contribute to help create a safer and more peaceful world," said Norio Hitsuishi, Vice President, Head of Security & Safety Camera Products, Panasonic i-PRO Sensing Solutions Co., Ltd..
