FOR IMMEDIATE RELEASE

i-PRO Network Cameras, Minimizing Cyber-Attack Risk from Outdated Firmware

i-PRO EXTREME Series is Now Live with Genetec Security Center Firmware Vault.

Fukuoka, JAPAN (May 18, 2020) – Panasonic i-PRO Sensing Solutions, formerly Panasonic Security Group, is announcing that Genetec's Security Center Firmware Vault is now available for our latest security camera series, i-PRO EXTREME. Genetec Security Center users now minimize cyber-attack risks due to outdated firmware as it is now simple and easy to keep firmware updated on i-PRO EXTREME security cameras.

According to research conducted by Genetec, as many as 68.4%—or almost 7 out of 10—cameras are currently running out of date firmware. Outdated camera firmware, and failing to change default passwords present some of the biggest weaknesses in cybersecurity defense. As the number of interconnected security devices keeps on growing, keeping pace with the latest updates can be tricky and very time-consuming.

Genetec Security Center is the unified security platform from Genetec that blends IP security systems within a single intuitive interface to simplify your operations. With Firmware Vault, all firmware is pre-downloaded to the centralized cache / download center, and upgrading targeted firmware is now simple and can be conducted from Security Center.

i-PRO EXTREME is an extreme fusion of Panasonic unique video and sensor technology, adding with high anti-environment stability and self-recognition/analysis capabilities, realize INCIDENTS much quicker, easier and with higher accuracy. End-to-end solutions with embedded Panasonic black-box technology enables flexible and scalable customized product solutions for high-demanding customers. Our main goal is to simplify your workflow.

The Firmware Vault is live for the i-PRO EXTREME, from the latest version of Genetec Security Center.
